Home Comforts

IN THE HOME ELECTRICITY has Revolutionized the work, greatly lightening the labor of the Housekeeper. She may have an Electric Fan near the Ironing board with no fear of cooling the iron. The current which keeps her cool, keeps the iron hot. She may work away all day, sitting down if she chooses, with no journeyings to the hot stove to change irons. One iron will do it all, from a lace collar to a damask table cloth. A steady, even heat, and no scorching of delicate fabrics with too hot an implement. Ask for one on trial. We will do the rest.

Iron, \$4.00
